

INFORMATION THAT MAY HELP GET AN UNDERGRADUATE RESEARCH POSITION

Faculty member:

Last Name **FREE**

First Name: **STEPHEN J.**

1. What do you look for in a potential undergraduate researcher?

I expect motivation, interest, good grades, and a student that has taken laboratory courses.

2. What are the best times of the year for students to look for a spot in your lab?

The best times of the year are late spring for a spot in the summer or fall.

3. What do you expect from an undergraduate researcher?

I expect variable amounts of time, devotion and responsibility.

4. What can the student expect to be doing in your lab?

Working for a graduate student.

5. What is the best way to approach you about getting research in your lab?

Just stopping by!

6. What kind of repayment can the student expect?

Course credit

7. If course credit is given, what does it take to get an A?

Conscientiously working.

8. Do you have room in your lab now, or foreshadow when you will?

I expect to have an opening in the laboratory for the summer of 2006
