

INFORMATION THAT MAY HELP GET AN UNDERGRADUATE RESEARCH POSITION

Faculty member:

Last Name **HENNESSEY**

First Name: **TODD M.**

1. What do you look for in a potential undergraduate researcher?

A student that has taken BIO 215 and received a 3.0 or better in it, as well as interest.

2. What are the best times of the year for students to look for a spot in your lab?

Any time

3. What do you expect from an undergraduate researcher?

I expect 10-12 hours a week time devoted during which the student should expect a lot of responsibility.

4. What can the student expect to be doing in your lab?

They should never be working for a grad student or as a lab tech. They would be an independent researcher.

5. What is the best way to approach you about getting research in your lab?

Personal interview only

6. What kind of repayment can the student expect?

Course credit and summer pay.

7. If course credit is given, what does it take to get an A?

Commitment

8. Do you have room in your lab now, or foreshadow when you will?

No, maybe next fall.
