

## INFORMATION THAT MAY HELP GET AN UNDERGRADUATE RESEARCH POSITION

Faculty member:

Last Name **LORETZ**

First Name: **CHRISTOPHER A.**

1. What do you look for in a potential undergraduate researcher?

**I expect students to: have achieved junior class standing, have a 3.0 or better GPA, previously have taken relevant courses and be cooperative workers.**

2. What are the best times of the year for students to look for a spot in your lab?

**The best times are at the beginning of the semester (first week).**

3. What do you expect from an undergraduate researcher?

**I expect the student to devote a minimum of two afternoons (or mornings) per week, and be responsible for his/her own project.**

4. What can the student expect to be doing in your lab?

**The student can expect to be working with a graduate student or doing independent research.**

5. What is the best way to approach you about getting research in your lab?

**The best way to approach is via email - [loretz@buffalo.edu](mailto:loretz@buffalo.edu)**

6. What kind of repayment can the student expect?

**The student can expect independent study course credit.**

7. If course credit is given, what does it take to get an A?

**To receive an "A", the student must show effort and enthusiasm and a report on work accomplished.**

8. Do you have room in your lab now, or foreshadow when you will?

**There is presently no room, maybe in the fall of 2006.**
